

Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Tuesday 21 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Cloud generally breaking to allow overnight frost. Wednesday brighter.

This Evening and Tonight:

Remaining dry and cold. Cloudy start for most areas. Clear spells developing overnight as cloud starts to break and clear. This leading to a frost for many areas by the end of the night. Perhaps cloudier near coasts. Winds light. Minimum temperature -3 deg C (27 deg F).

Wednesday:

A bright and frosty start. Cloud thickening through the day, with patchy light rain arriving later, this perhaps wintry, especially over hills. Most parts probably staying dry though. Feeling cold. Maximum temperature 4 deg C (39 deg F).

Outlook for Thursday to Saturday:

Thursday and Christmas Eve often cloudy, breezy with rain, possibly wintry over hills. Becoming milder. Probably turning colder and quite windy on Christmas Day, with some wintry showers, especially later.
